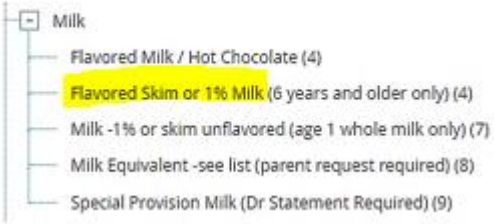
Flavored Milk Claim Error

Flavored milk does not credit for children under 6 years of age. A common menu error occurs when flavored milk is recorded on days when children under 6 are in care. In many cases, this is simply an entry error, especially when menus are recorded on a phone. Not all milk options may appear on the screen at the same time.



Flavored milk is located just above 1% and skim milk. You may need to scroll down the milk list to get to "Milk 1% or skim unflavored".

To avoid menu deductions, take a moment to double-check the milk type you've selected before saving your menu. A quick glance can prevent unnecessary claim deductions later!

Fuling Young Minds

The January 2026 issue of "Mealtime Memos" discusses how nutrition supports learning.
Every day, you do more than care for children—you help them grow strong and healthy. One of the best ways to support this growth is by serving nutritious meals and snacks.
