

Child Enrollment Forms

Every child whose meals and snacks are claimed for reimbursement must have a complete Child Enrollment Form on file with ACA. The enrollment must be signed and dated by the child's parent or guardian.

KidKare on-line providers should send new enrollments immediately after the parents complete them. Do not wait until the end of the month to print and mail new enrollments.

Paper claiming providers should send new enrollments with their Food Program claim.

If a complete enrollment is not on file in ACA's office when we submit your claim to the Minnesota Department of Education (MDE) for reimbursement, you will lose the reimbursement for that child's meals and snacks.

You cannot enroll a child for the first time on a re-enrollment form. The Enrollment Renewal Report does not contain required parent information which is on the Child Enrollment Form.

Parents must sign and date enrollment forms. **The date must be for the month being claimed.** If you are claiming a new child for November, the enrollment must be dated for November. If it is dated for December, November's meals and snacks for that child will not be reimbursed.

Do not lose reimbursement! Contact ACA if you have any child enrollment questions.
