

Valentine Hershey's Kiss

Here is a favorite Valentine's Day crafts for kids to make. It is a fake Hershey's kiss! All you need is tin foil, pink paper, scissors, a black marker and tape to make one. These are great for gifts to grandparents, parents, teachers, etc.!

Take a sheet of tin foil and rip it off. Depending on how big you want your Hershey's Kiss you will have to decide.

Crumple up the tin foil into a ball, then carefully unroll it back to flat. Cut out a Hershey kiss shape (like a triangle but with rounded edges on the bottom)

This gives it the texture that real Hershey chocolate kisses have on the wrapper! Then cut out a pink heart and another one inside that one. Cut out a pink thick squiggly line for the "paper" part of the kiss.

Use tape on the attach heart. Write anything on the paper like "XOXOs" or "I love you" or "Hugs N Kisses" etc.
